

FSI Statement Regarding Hurricane Dorian

As Hurricane Dorian approaches Florida, we understand that many of our Florida clients are making plans to prepare for the potential impact of the storm.

The FSI team would like to remind you that regardless of the severity of the storm, we are prepared for every scenario when it comes to your data.

Firstly, we have securely backed up your data in three separate locations, two of them being outside of Florida, to ensure you have peace of mind regarding the maintenance and security of your trust.

For clients utilizing electronic banking with FSI who are able to process transactions or are located outside of Florida, the processing of trust deposits and withdrawals will remain uninterrupted.

If you have any questions, please email us at clientservices@fsitrust.com

Sincerely,

A handwritten signature in blue ink, appearing to read "Bill Williams, Jr.", written in a cursive style.

Bill Williams, Jr., LFD
President & CEO
